

**BARBARA EASTON  
FOR  
PARISH COUNCIL**

I have been a Bramshott and Liphook Councillor for the last four years and I am currently the Chairman of the Highways and Byways Committee, I also serve on the Planning Committee and the Finance and Policy Committee.

I was also involved in preparing the Parish Survey, which will become part of the Parish Plan.

The Highways Committee tackles the traffic problems in Liphook, which will only increase as the local population grows. Hopefully when the Hindhead Tunnel opens, we will experience less Haslemere bound traffic.

I also support all projects to help the elderly in our Parish, and am a member of the Finance and Policy Committee, which releases grants to support many other worthwhile projects in Liphook, and I fully support the Play Park refurbishment.

I would like to be re-elected onto the Parish Council in order to ensure that the growth of Liphook is matched by infrastructure support, such as the new Medical Centre and better shopping facilities than we have now. We must plan for the future now and the Parish Council is a vital part of that planning process.

I have lived in the local area for seventeen years, after moving away from London in the eighties, where I worked in Financial Services for 30 years. I live with my two collie dogs Pip and Meg, and we enjoy many walks in our beautiful countryside. I hope to be re-elected in May in order to continue helping our local community.
