

# JACKIE POOLE FOR PARISH COUNCILLOR

I have lived in Liphook for four years and was elected onto the Parish Council in December 2008. I have been on the Planning and Highways, Byways and Transport committees since my election; later joining the Management Committee of the Millennium Centre and during last year, the Recreation Committee for which I was recently elected as Chairman. I have been a strong supporter of the project to renew the children's play area at the recreation ground, since receiving the petition and the well-argued case of the parents who initiated it.

Shortly after my election, I was involved in the final stages of the Parish Survey, which will be a strong element of the Bramshott & Liphook Parish Plan which is currently in preparation. I was part of the working group to form the steering group for the Parish Plan and I am pleased to be the Parish Council's representative on the steering group. I believe strongly that local opinions should be heard in making decisions that affect the local community and canvassing views and contributions from the whole community will be fundamental in the creation of the Parish Plan.

There is so much change and opportunity in the offing for Liphook and the parish as a whole (eg. Transport spinoffs from the neighbouring Bordon Eco-Town development and South Down's National Park surrounding Liphook with enhanced possibilities for the conservation of our beautiful countryside).

It is important to have a Council alive also to the dangers and threats that are posed – and fight for the best outcome of the Parish.

I am proud to be your independent candidate and hope to be re-elected and continue my efforts to make a positive contribution.
