

You may not know this, but there is a by-election on Thursday 15th September. Candidates Michael Croucher and Eve Hope are standing for East Hampshire District Council (EHDC) and Maureen Comber is standing for the Hampshire County Council (HCC) seat. All three of them are former District Councillors with considerable knowledge and experience in helping to run EHDC, and at the same time, have **the community's** best interests at heart:

MICHAEL CROUCHER for DISTRICT

Michael has a proven record of community involvement with local organisations such as the Citizens Advice Bureau (CAB), Liphook Day Centre and as a past Governor of both primary schools. Having lived in Liphook for 39 years, he is involved in many fundraising events and is a founder member of LiDBA. As a long-serving Parish Councillor, he has contributed to many projects in the village, the most recent being the new Heritage Centre at the Liphook Millennium Hall. Michael is currently Vice-Chairman of your Parish Council.

EVE HOPE for DISTRICT

Eve has served as your District Councillor for the last 8 years until May this year. She feels passionately about the need to improve community facilities for people in Liphook and the surrounding hamlets. With her professional background in Health and management of Mental Health and Learning Disability Services she is committed to making sure the community receives quality health and social care services locally. Eve is currently Chair of your Parish Council.

MAUREEN COMBER for COUNTY

Married to a farmer, Maureen has lived in the local area for 40 years. A Parish Councillor for 15 years and a District Councillor for 4, she knows well the need to protect the villages from over-development and too much traffic. Her campaigning covers many issues including protecting rights of way, open spaces and working to improve local health services.

The current Tory administrations in both East Hampshire District and Hampshire County Councils are making drastic cuts to our services. CAB, Children's Centres, Youth Services, Bus Passes with many others under threat. It is only through a strong Liberal Democrat voice on both Councils, that, these cuts can be **fought, and reversed!**
